Introduction

A. Municipal Government Structure

At the end of 1999, there were 571 municipalities in the province of Ontario. Of these, 536 were "lower tier" or "single tier" municipalities (cities, towns, separated towns, villages, townships and improvement districts), and 35 were "upper tier" municipalities (county, regional and metropolitan governments).

There are **three types of municipal government** structures in Ontario: the county system, the regional system and the single tier system. All three forms of government are found in southern Ontario, while northern Ontario communities tend to be single tier municipalities or unorganized for municipal purposes.

The **county system** is only present in southern Ontario. **Lower tier municipalities** within counties provide the majority of municipal services to their residents. **County governments** provide limited services such as arterial roads, health and social services. Lower tiers in counties raise taxes for their own purposes, as well as for the upper tier and education purposes.

Cities and separated towns located within a county are not part of the county system and do not contribute taxes to the county. They are therefore referred to as **single tier municipalities**. Single tier municipalities are responsible for the provision of all municipal services to their residents. Examples of single tier municipalities include: the City of London, the City of Windsor, the City of Kingston and the Separated Town of Smith Falls.

Two-thirds of Ontario's population lives in areas with a **regional system** of municipal government. Ten regional municipalities were established over the period 1969 to 1974. Two other municipalities are considered to have a regional form of government: the District Municipality of Muskoka (1972) and the Restructured County of Oxford (1975), and are included in this group.

The upper tier in a region has more servicing responsibilities than in the county structure. Regional services usually include: arterial roads, transit, policing, sewer and water systems, waste disposal, regional planning and development, and all health and social services. The lower tier municipalities are usually responsible for local roads, fire protection, garbage collection, recreation and local planning needs. All lower tier municipalities in a region, including cities, participate in the regional system.

Northern Ontario is divided into ten **territorial districts**. These territorial districts are for judicial and administrative purposes only and are not municipal units. Most northern municipalities are single tier municipalities. There are no county governments in the north and only one regional government, the Regional Municipality of Sudbury, which was created in 1973.

Approximately 45,000 people live in northern areas without municipal organization that are served by school boards. This number excludes aboriginal

people living in Reserves and areas not receiving school services.

People in unorganized areas live primarily in small unincorporated communities. The operations of those unincorporated communities are not included in this publication.

The following table shows the distribution of Ontario's municipalities by status and municipal organization:

B. Municipal Financial Reporting Structure

Ontario municipalities prepare their financial statements using the principles and disclosure guidelines contained in the Municipal Financial Reporting Handbook. This is supplemented by the Handbook of the Canadian Institute of Chartered Accountants.

Generally, there is no netting of revenues against expenditures except for a few types of recoveries such as retail sales tax refunds or items purchased for resale.

Accrual Basis

The Municipal Financial Reporting Handbook requires municipalities to report on a full **accrual basis**, except for debt charges which are on a cash basis. Municipalities do not report fixed assets. However, where a capital asset is financed through a long term loan, the balance sheet reflects the long term liability incurred and a corresponding asset, "capital outlay to be recovered in future years".

Debt retirement costs, both principal and interest, are reported as an expenditure in the revenue fund. As long term debt is repaid, the entry "capital outlay to be recovered in future years" on the balance sheet is reduced.

Fund Basis

Ontario municipalities are required to account and report their financial transactions on a fund basis. The two main funds used are the **revenue or general fund**, and the **capital fund**. Many municipalities also operate **reserve funds** and **trust funds**. In addition, most municipalities have **reserves** set aside within the revenue fund.

The **revenue fund** is used to account for all general revenues and expenditures. It is equivalent to the accounting for current operations of a private sector corporation. In general, the revenue fund accounts for recurring year to year operations: wages and salaries, debt charges, tax revenues, service charges, provincial grants for operating purposes, etc.

The **capital fund** is used to account for all capital expenditures and their financing. For local government purposes, a capital expenditure is generally one which provides benefits lasting more than one year (e.g. construction of building, acquisition of land). The major sources of capital financing are long term borrowing, provincial grants and money transferred from other funds. The capital fund is also used to account for any money borrowed on behalf of local boards and commissions.

Reserve funds are used to account for transactions which, for legal or other reasons, require that monies specifically earmarked for a particular project or activity be physically segregated and actually spent on that project or activity. Large and medium size municipalities typically maintain several reserve funds. Examples of reserve funds required by law include development charges and subdivider contributions. Examples of reserve funds set up at the discretion of municipal councils include those for land acquisition, equipment replacement and future capital

projects. The use to which reserve funds may be put is specified when the funds are set up, and they may not be converted to other uses without council's approval.

Reserves, unlike reserve funds, do not require the physical segregation of monies. The establishment and use of reserves is wholly at the discretion of municipalities. Reserves are usually established for purposes such as working funds, replacement of equipment and contingencies.

The revenue of both reserves and discretionary reserve funds comes from specific appropriations from the revenue fund. This occurs when a municipality wishes to earmark part of its current revenues for a specific expenditure expected to be incurred in future years. For example, where a municipality anticipates a major capital project in five years' time, it may set up a reserve fund for this project and contribute to the fund in each of the years preceding the commencement of the project.

The revenue of obligatory reserve funds does not come from the revenue fund, but directly from sources such as development charges levied on developers.

When amounts in reserves and reserve funds are spent for capital or current purposes, the expenditures are recorded in the capital or revenue fund. In the reserves and reserve funds the amounts are recorded as transfers to the appropriate fund.

Trust funds are funds held in trust by municipalities. An example would be the funds held on behalf of residents of homes for the aged. They are not part of a municipality's finances, but represent amounts for which the municipality is a trustee.

C. Data Sources

This publication is based primarily on the 1999 Financial Information Returns (FIRs) submitted to the Ministry of Municipal Affairs and Housing by all Ontario municipalities.

The data from the FIRs and other statistical returns are stored in the Ministry's computerized database known as the Municipal Analysis and Retrieval System (MARS). The MARS database contains statistics for each municipality in the Province for the period 1977-1999. The statistics shown in this report were extracted from the MARS database.

The FIRs are designed to report the consolidated financial operations of municipalities on a consistent and uniform basis. As such, they include all municipally related transactions including those of local boards and other entities created by the municipality. Exceptions to this rule include local hydro, gas and telephone utilities, hospitals, conservation authorities, children's aid societies, school boards, district health councils, harbour commissions, provincial area library boards, humane societies, municipal non-profit housing corporations and provincial-municipal housing authorities. Only the municipal contributions to these entities appear in the FIRs.

D. Column Definitions

Each of Chapters II though IV is divided into 15 page sections. In all, there are 19 sections, 17 of which are contained in Chapter IV. Chapter II presents summary municipal financial and demographic data by municipal status and category. Chapter III summarizes the information according to population and status within each category. Note that information on some groups in Chapter III has been omitted as it is the same as is reported in Chapter II. The 17 sections in Chapter IV provide financial data for each individual municipality.

Qualifications for farmlands class is based on the criteria for qualification for the former Farm Tax Rebate Program that applied in 1997.

A. Structure de l'administration municipale

À la fin de 1998, il y avait 646 municipalités dans la province de l'Ontario. Six cent onze d'entre elles étaient des municipalités de palier inférieur ou à un seul palier (cités, villes, villes séparées, villages, cantons et districts en voie d'organisation) et 35 étaient des municipalités de palier supérieur (comtés, municipalités régionales et municipalités de communauté urbaine).

Il existe **trois types d'administrations municipales** en Ontario : le régime d'administration de comté, le régime d'administration régionale, notamment la communauté urbaine de Toronto, et les municipalités à un seul palier. Les trois types d'administration existent dans le Sud de l'Ontario, alors que dans le Nord, on trouve plutôt des municipalités à un seul palier ou des territoires non érigés en municipalité.

Le **régime d'administration de comté** n'existe que dans le Sud de l'Ontario. Les **municipalités de palier inférieur** qui font partie d'une administration de comté fournissent la plupart des services municipaux à leurs résidents. Les services offerts par les **administrations de comté** se bornent à l'entretien des routes, aux services de santé et aux services sociaux. Les résidents s'en remettent à leur municipalité locale pour la plupart des services municipaux. Celle-ci perçoit des impôts pour les services qu'elle fournit, ainsi que pour le compte de l'administration de comté et des conseils scolaires.

Les **cités et les villes séparées** situées à l'intérieur d'un comté ne font pas partie du régime d'administration de comté et ne perçoivent pas d'impôt pour le compte de cette administration. Elles forment ce qu'on appelle des **municipalités à un seul palier**. Ces municipalités se chargent de la prestation de tous les services destinés à leurs résidents. Pour donner des exemples de ces municipalités en Ontario, citons la cité de London, la cité de Windsor, la cité de Kingston et la ville séparée de Smith Falls.

Les deux tiers de la population de l'Ontario vivent dans des territoires relevant d'une **administration régionale**. Aux 10 municipalités régionales qui ont été créées entre 1969 et 1974, il convient d'ajouter la municipalité de district de Muskoka (1972) et le comté réorganisé d'Oxford (1975).

Les municipalités de palier supérieur d'une région offrent un plus large éventail de services que les administrations de comté. Ces services comprennent généralement l'entretien des routes, les transports en commun, les services de police, les systèmes d'approvisionnement en eau et d'égouts, l'élimination des déchets, l'urbanisme et l'aménagement au niveau de la région et tout l'éventail des services sociaux et de la santé. Les municipalités de palier inférieur situées dans un territoire desservi par une administration régionale se chargent généralement de l'entretien des routes locales, de la lutte contre les incendies, du ramassage des ordures ménagères, des loisirs et des besoins de l'aménagement sur le plan local. Toutes les municipalités d'une région participent au régime d'administration régionale.

Le Nord de l'Ontario est divisé en

10 **districts territoriaux**. Ces districts territoriaux servent uniquement à des fins judiciaires et administratives et ne constituent pas des municipalités. La plupart des municipalités du Nord sont des municipalités à un palier. Le Nord de l'Ontario n'est pas découpé en comtés et comprend une seule administration

régionale, la municipalité régionale de Sudbury constituée en 1973.kl

Quelque 45 000 habitants vivent dans les **territoires non érigés en municipalité** du Nord de l'Ontario desservis par les conseils scolaires. Ce nombre ne tient pas compte des populations autochtones vivant sur des réserves et des régions qui ne reçoivent pas de services scolaires.

Le tableau qui suit illustre la répartition des municipalités de l'Ontario selon le statut et le type d'administration municipale.

B. Structure de l'information financière des municipalités

Les municipalités de l'Ontario adoptent les principes et les normes de présentation contenues dans le manuel de présentation de l'information financière municipale lorsqu'elles rédigent leurs états financiers et utilisent aussi le manuel de l'Institut Canadien des Comptables Agréés.

De façon générale, on ne déduit pas les revenus des dépenses sauf pour certains recouvrements comme ceux liés à la taxe de vente au détail ou aux articles destinés à la revente.

Comptabilité d'exercice

Conformément aux directives du manuel de présentation de l'information financière municipale, les municipalités utilisent la **méthode de la comptabilité d'exercice**, sauf pour le service de la dette pour lequel elles utilisent la méthode de comptabilité de caisse. Les municipalités ne déclarent pas leur immobilisations. Cependant, lorsque les dépenses en immobilisations sont financées au moyen de débentures, le bilan fait ressortir la dette à long terme et un actif correspondant, «sorties de fonds recouvrables dans les exercices ultérieurs». Les frais de remboursement des dettes, tant le principal que les intérêts, sont imputés au fonds d'administration. Au fur et à mesure du remboursement de la dette à long terme, on réduit la somme de «sorties de fonds recouvrables dans les exercices ultérieurs».

Comptabilité par fonds

Les municipalités de l'Ontario sont tenues de rendre compte de leurs opérations financières selon la comptabilité par fonds et d'en faire rapport. Les deux principaux fonds utilisés sont le **fonds d'administration** et le **fonds de capital et d'emprunt**. Beaucoup de municipalités disposent également de **fonds de réserve** et de **fonds en fiducie**. En outre, la plupart des municipalités possèdent des **réserves** à l'intérieur du fonds d'administration.

Le **fonds d'administration** sert à comptabiliser toutes les recettes et les dépenses d'administration. La méthode est comparable à la comptabilité de l'exploitation d'une société du secteur privé. En général, le fonds d'administration comptabilise les frais de fonctionnement qui se répètent d'une année à l'autre : salaires, service de la dette, recettes fiscales, frais de gestion, subventions de la province pour les frais de fonctionnement, etc.

Le **fonds de capital et d'emprunt** sert à comptabiliser toutes les dépenses en immobilisations et leur financement. Aux fins de l'administration locale, par dépenses en immobilisations, on entend généralement toute dépense dont les avantages se feront sentir durant plus d'une année (par exemple, construction d'un immeuble, acquisition de terrain). Les emprunts à long terme, les subventions de la province et les sommes virées d'autres fonds sont la source principale du financement des immobilisations. Le fonds de capital et d'emprunt sert également à comptabiliser les emprunts contractés au nom des commissions et des conseils locaux.

Les **fonds de réserve** servent à comptabiliser les opérations qui, pour des raisons juridiques ou autres, exigent l'affectation d'une somme à une activité ou à un projet particulier, qui ne serviront qu'à ce projet ou à cette activité. Les grandes et les moyennes municipalités disposent en général de plusieurs fonds de réserve. Comme exemples de fonds de réserve exigés par la loi, citons les redevances relatives à l'aménagement de biens-fonds et les contributions des promoteurs. Pour ce qui est des fonds de réserve établis à la discrétion des conseils municipaux, mentionnons les fonds pour l'acquisition de terrains, le remplacement de matériel et les immobilisations futures.

Au moment de l'établissement d'un fonds de réserve, on en précise l'utilisation. Pour en modifier l'utilisation, il faut obtenir l'autorisation du conseil municipal.

Contrairement aux fonds de réserve, les **réserves** n'exigent pas que l'argent reste dans un compte séparé. La création et l'utilisation des réserves sont entièrement laissées à la discrétion des municipalités. On établit généralement des réserves pour des éléments comme les fonds de roulement, le remplacement du matériel et les dépenses imprévues.

Les recettes des fonds de réserve discrétionnaires et des réserves proviennent d'affectations particulières du fonds d'administration. C'est le cas lorsque la municipalité souhaite affecter une partie de ses recettes à court terme à une dépense déterminée qu'elle envisage de faire dans l'avenir. Par exemple, si la municipalité prévoit un grand projet d'immobilisations dans cinq ans, elle peut établir un fonds de réserve pour ce projet et l'alimenter tous les ans avant le démarrage du projet.

Les recettes des fonds de réserve obligatoires ne proviennent pas du fonds d'administration, mais directement de sources comme les redevances relatives à l'aménagement de biens-fonds que versent les promoteurs immobiliers.

Lorsque la municipalité dépense des sommes provenant des réserves et des fonds de réserve pour des immobilisations ou pour un projet à court terme, elle inscrit les dépenses dans le fonds de capital et d'emprunt ou dans le fonds d'administration. Ces sommes sont comptabilisées dans les réserves et les fonds de réserve comme des virements au fonds approprié.

Les municipalités détiennent aussi des **fonds en fiducie**. On pourrait donner l'exemple d'un fonds détenu au nom des pensionnaires d'un foyer pour personnes âgées. Ces fonds sont distincts des finances de la municipalité, mais ils représentent des sommes pour lesquelles la municipalité agit à titre de fiduciaire.

C. Sources des données

La présente publication repose essentiellement sur les rapports d'information financière (RIF) que toutes les municipalités ontariennes soumettent une fois par an au ministère des Affaires municipales et du Logement.

Le ministère entre les données provenant des RIF et d'autres résultats statistiques dans sa base de données informatisée connue sous le nom de MARS : système d'analyse et de recherche documentaire municipale. La

base de données MARS contient des statistiques pour chaque municipalité de la province pour la période comprise entre 1977 et 1998. Les statistiques qui figurent dans le présent rapport proviennent de la base de données MARS.

Les RIF ont pour but de communiquer les résultats financiers consolidés des municipalités de manière cohérente et uniforme. En l'occurrence, ils englobent toutes les opérations connexes des municipalités, y compris celles des commissions et conseils locaux créés par la municipalité. Font exception à cette règle les services publics d'électricité, de gaz et de téléphone, les hôpitaux, les offices de protection de la nature, les sociétés d'aide à l'enfance, les conseils scolaires, les conseils régionaux de santé, les commissions portuaires, les conseils d'administration locaux des bibliothèques provinciales, les sociétés de protection des animaux, les associations municipales de logements à but non lucratif et les commissions de logement provinciales/municipales. Les RIF n'indiquent que le montant de la part que la municipalité a versée à ces organismes.

D. Définitions

Les chapitres II à IV sont divisés en sections de 15 pages. En tout, il y a 19 sections dont 17 se retrouvent dans le chapitre IV. Le chapitre II contient les données financières et démographiques des municipalités selon le secteur et la catégorie de municipalité. Le chapitre III contient les données financières et démographiques des municipalités par fourchette de population. Les renseignements concernant certains groupes ne figurent pas dans le chapitre III puisqu'ils figurent déjà dans le chapitre II. Les 17 sections du chapitre IV fournissent des données financières sur chaque municipalité.
